CAREER OBJECTIVE

Final-year B.E. Computer Science student. Full Stack Developer with hands-on experience in Node.js, Express, PostgreSQL, React.js, and REST API development. Seeking a Full Stack or Frontend Developer role to build and ship production-grade web applications.

EDUCATION

Bachelor of Engineering in Computer science

Sep 2027

Atria Institute of Technology

GPA: 8.41

PUC

May 2023

Chethana P.U College

GPA: 85

X

Mar 2021

Florence Public School

GPA: 85

INTERNSHIP

Full Stack Intern

Apr 2026 - Jul 2026

Atria Renewable — Atria Renewable (Atria Power)

- Built a Microsoft Teams bot integrated with the AtriaForce CRM that automatically reminds users about pending tasks every day at 9 AM, reducing missed follow-ups for the team
- Developed backend logic using Node.js, Express, PostgreSQL, and Prisma, integrating with the Microsoft Bot Framework for real-time notifications

Student

Mar 2024 - Apr 2024

AI/ML Intern — Personify

- Completed structured training in AI/ML fundamentals and implemented a text classification model

CORE SKILLS

• Languages: JavaScript , Python • Web Technologies: HTML, CSS, REST APIs

- Frameworks & Tools: React.js, Node.js, Express.js, PostgreSQL, Prisma, TensorFlow, Streamlit, Hugging Face, GitHub, VS Code
- Soft Skills: Team Collaboration, Adaptability, Communication

PROJECTS

RAZORPAY ELECTRONICS STORE (MERN STACK)

- Engineered a full-stack e-commerce application with secure Razorpay payment integration, supporting end-to-end product, order and invoice management - Built RESTful APIs using MongoDB, Express.js, React.js and Node.js, with a responsive UI for smooth checkout and order tracking

VASANT VALLEY SCHOOL WEBSITE REDESIGN

-Designed and built a full school website redesign as part of an internship selection project, translating a design brief into a live, deployed responsive site - Independently handled UI/UX decisions, page structure, and content layout for a real-world client scenario

MINDEASE AI — AI-POWERED MENTAL HEALTH CHATBOT

- Built an NLP-powered chatbot that detects emotions in text and generates supportive responses, using pre-trained transformer models from Hugging Face with a Streamlit web interface - Presented the solution at a competitive hackathon, securing 20th place among 50 teams

SCHOOLME — AI-POWERED EDUCATIONAL VIDEO GENERATOR

-Built a platform that converts text/textbook content into animated educational videos - Developed backend logic and API integrations using Node.js and JavaScript, with automated checks to improve output quality, designed for scalable multi-lesson processing

CERTIFICATIONS

Oracle Cloud Infrastructure Certified AI Foundations Associate — Oracle

Cybersecurity MOOC Course conducted by CySeck — CySeck

DSA Course — Apna College
